

SUMMER ENRICHMENT PROGRAM

FACULTY AND DIRECTOR

The excellent tutors at Merit Educational Consultants are selected based on two criteria:

- (1) their academic background in the subject areas they teach, and
- (2) their ability to inspire, challenge, and guide students to reach academic excellence.

Our tutors actively participate in course development and are experts in their respective fields. The tutors work with the director to ensure students make progress and achieve success when they return to school in the fall.

Merit Educational Consultants' college advisor, Susan Tatsui-D'Arcy, M.A., is also the director and founder.

Since 1979, she has founded and directed Professional Tutoring Programs, R.E.C. Day Camp and Ski Club, the Enrichment Program, Merit Academy, and Merit Professional Organizers.

She is a published author and blogs about education, college advisory tips, time-management, and parenting at GakkoMom.com.
